**1. Ed Skilling's Genius** - The Skilling Institute represents over 60 years of research and development. **Ed Skilling's genius is compared to Tesla.** He figured out how to send bio-friendly energy effectively to the body using space-age electronics. This bio-friendly energy stimulates and energizes the cells. It promotes balance and energetic coherence and empowers regeneration and repair too. The body-friendly energy empowers the body's immune system for unlimited healing potential.

**Doctor's Quote:** *"I have a lot of experience with the equipment now, and I am a huge electromagnetic frequency buff. The Skilling equipment leaves all other Rife machines, Tesla coils, oscillators, noble-gas and micro-current machines in the dust!" - T.*

**2. Safe & Effective** - Offers safe and effective alternative to taking risky prescriptions. Prescriptions often have risks of serious side effects, including possible death. (Doctors' prescriptions, surgeries, etc. are the 3rd leading cause of death. This is next to heart disease and cancer.)

**3. Easy & Convenient for Daily Use** – Can do every day without it taking any extra time out of daily schedules. The two energy boxes can be used when watching a movie, working at the computer, and/or in the car driving, etc.

**4. More Is Better** – Existing Photon Genie & GoGenie owners can use more than one instrument at a time. The more energy packs on the body at the same time, the better. We also recommend sleeping with the energy boxes on the body at night.

**5. Long distance driving made easier** - Truck drivers love the energy transmitter boxes for long distance driving. The energy support is noticeable!

**6. Great for animals.....**they love the Skilling energy. Non-invasive, no downside.

**7. Priceless blessing for the elderly in many ways** - quality of life issues improved and much more! For example, the energy transmitters helped **clear very painful bed sores for an elderly woman. She also cleared Lyme and staph infection and extended her life two years.** This woman's family was grateful beyond words!

**8. Share with others** (friends and family) or **create a GoGenie Wellness business and make money sharing** (easy to setup with a comfortable chair or recliner, etc.).

**9. Light weight** for travel and easy portability.

**10. Long-term wellness tool** to use the rest of your life to empower your immune system for the best health possible.
