BUSINESS ADVANTAGES

Skilling proprietary light technologies offer a win/win for you and your clients!

1] Serve More People

While you are hands-on with one client, you can have another client using the Super Sauna. And another client using the Photon Genie. In one hour, you can assist three people instead of one. Add more Super Saunas, etc. and this number goes up.

2] Diversify Revenues

Offering the Skilling Technologies is an easy way to add additional streams of revenue for your business with minimal investment. No costly franchising.

3] Increase Revenues

Increase your business revenues and cashflow. Busy practitioners recoup their investment in less than a year. Add all three instruments, a GoGenie, a Photon Genie, & a Super Sauna or any combination. The following example shows adding all three instruments and averaging five sessions a day, five days a week.

Example Annual Revenues:

(no results guaranteed, this is an example only)

- GoGenie: \$25/session generates - \$30,000 yearly (one-time investment \$1,495 +S&H)
- Photon Genie: \$50/session generates - \$60,000 yearly (one-time investment \$2,995 +S&H)
- Super Sauna: \$75/session generates - \$90,000 yearly (one-time investment \$24,700 +S&H)
- Add all three instruments with an average of five sessions a day per instrument equals \$180,000 increase in annual revenues with a one-time investment of \$29,190 +S&H.

BUSINESS ADVANTAGES [CONTINUED]

5] Easy To Get Setup

The Super Sauna fits in the corner of a room. Placing the Super Sauna (it's on wheels) sideways from a wall creates a private space for sessions. No buildout required. Also, some practitioners use a portable screen or wall divider to create a private space. (The Super Sauna ships fully-assembled in a secure crate and is ready to plug in and use when received. Electrical 220 volts & 40 amps, similar to a clothes dryer.)

6] A Comfortable Chair is All You Need

To get started with a Photon Genie or GoGenie, all you need is a chair and a regular electrical outlet. Both are easily transportable. Some clients' visit senior care facilities and rehabilitation centers with the GoGenie.

7] Enhance Results (One of a Kind Wellness Technology)

Improve your clients' results. Also use for your own health and wellness, and reduce stress! Our clients also rave about losing weight without exercising. The body naturally and safely achieves more balance.

8] Complementary

Besides easy to use and safe, the technologies are complementary with other modalities too!

Patients/clients love the "spa like" experience and how they feel.

NOBLE GAS ENERGY

The Skilling technologies empower the immune system. The immune system has both innate intelligence that we are born with, as well as the ability to learn. Immune system support is important for everything from the common cold to cancer. Empowering the immune system in a variety of ways is also important, especially for learning to overcome new “enemies” (pathogens) in the body.

Ed Skilling, an electronics genius, first got involved with electromedicine (energy for wellness) around the 1950s, when he was asked by cancer doctors to evaluate an instrument based on Rife schematics. He was especially motivated because of losing family members to cancer. Because of his electronics genius, Ed Skilling was able to advance this technology with better results using space-age electronics.

Noble Gases

One of Ed Skilling’s areas of mastery for health included the noble gases.

“The noble gases (historically also the inert gases) make up a class of chemical elements with similar properties; under standard conditions, they are all odorless, colorless, monatomic gases with very low chemical reactivity. The six naturally occurring noble gases are helium (He), neon (Ne), argon (Ar), krypton (Kr), xenon (Xe), and the radioactive radon (Rn).”

https://en.wikipedia.org/wiki/Noble_gas

The Photon Genie has noble gases in its two (2) glass wands, and the Super Sauna has twenty four (24) five-foot colored glass tubes with noble gases. Ed Skilling shared about the Noble Gases: “They create magic!”

He added, “There is not really any scientific way to totally analyze everything that these Noble gases do and how they do it!”

Dr. Bruce Lipton, author of *Biology of Belief*, equates the energy of the noble gases to an unconditional love energy “spinning in perfect balance”:

“The most significant aspect of the six ‘noble gases’ is that they are the only elements in the periodic table that don’t (except under very special circumstances) form chemical compounds. Basically, a noble gas is an element spinning in perfect balance – it doesn’t ‘need’ another element to be balanced.”

SUBTLE LIFE ENERGY FOR WELLNESS

The Skilling technologies transmit body friendly energy for broad spectrum wellness. This body friendly energy is referred to as **subtle life** energy. It energizes the body's immune system.

Energy Deficiency & Incoherence

It is common for many people with health challenges to be energy deficient. **Gross energy** similar to an electrical shock (unrefined) seems to even help the immune system. This is seen with auto mechanics that experience electrical shocks. They tend to get less colds and flu.

Skilling's *subtle life* energy is refined and body friendly.

Coherence (energetic integrity, harmony) in the body unleashes unlimited healing potential. Dr. Popp (physicist) proved this beginning in the 1980s.

"We know today that man, essentially, is a being of light. We are still on the threshold of fully understanding the complex relationship between light and life, but we can now say emphatically, that the function of our entire metabolism is dependent on light."

— Dr. Fritz-Albert Popp, PhD

Modern World of Technology Chops Energy Fields

Today's world of cell phones, wifi, grocery scanners, etc. "breakup" or interrupt energy in the body. This "chopping up" disrupts systems and functions beginning at the cell level. This disruption compromises the body's healing mechanisms (immune system), causing incoherence and interference.

Skilling Technologies Promote Energetic Coherence (Harmony)

They promote balance and harmony which enables the body to do what it knows how to do naturally. We are born with innate healing abilities (immune system). We experience this when we're a kid and scrape our knee. The healing begins immediately when the immune system is strong and working. We don't have to do anything; it is innate.

What is the immune system?

It includes every system and function in the body. This includes good digestion, healthy sleep, functioning lymphatic system (manages toxins) etc.

"The only known cure for anything is your own God-given immune system. All I did is figure out how to communicate with it and power it up!"

— Ed Skilling (Engineer/Inventor)

NATURALLY EMPOWERING

The Skilling technologies empower the innate healing abilities of the body. They promote balance, coherence (harmony), and energize the body's immune system functions.

Broad Spectrum Wellness from Subtle Life Energy:

- 1] Stimulates moving and balancing of fluids (lymphatic system too)
- 2] Energizes and harmonizes cells
- 3] Promotes energetic coherence
(transmits thousands of frequencies and billions of harmonics)
- 4] Neutralizes and converts harmful EMFs so body's energetic integrity can be whole
- 5] Stimulates production of Nitric Oxide (NO) "Miracle Molecule"
More info at www.NitricOxideEffects.com
- 6] Non-invasive
- 7] Safe (no harmful side effects)
- 8] Easy
- 9] Preventative, health maintenance, and imbalance reversal possible;
Empowers body's immune system
- 10] Powerful enough to notice quality of life improvement
(energy, sleep, digestion, etc.)

When the immune system is empowered the healing mechanisms are profound. Energetic coherence unleashes unlimited healing potential!

"We know today that man, essentially, is a being of light."

— Dr. Fritz-Albert Popp, German Physicist and Researcher in Biophysics and Biophotons

CONNECTING THE DOTS

Nitric Oxide (NO) and Infrared Sauna Connection

Dr. Nathan S. Bryan, Ph. D. shares his knowledge on Nitric Oxide, its positive effects and how to increase productivity.

How Infrared Works: (ATP, Nitric Oxide, Better Blood Flow, Oxygenation & Circulation):

Video: <https://www.youtube.com/watch?v=KOFQn6YTj2s>

"Nitric oxide (NO) is considered one of the most important molecules produced in humans."

"This simple molecule controls oxygen and nutrient delivery to every cell in the body. It regulates cellular communication and even has anti-microbial properties that protect our body from invading pathogens."

"In fact, this molecule is so important it was named 'Molecule of the Year' by Science Magazine in 1992 and in 1998 a Nobel Prize in Physiology of Medicine was awarded to the three US Scientists responsible for its discovery."
