Photon-Genius

Recent research published by the *Journal of the AMA*, and the *Journal of Immunology*, *Lancet*, *Nature*, *New England Journal of Medicine*, and *Proceedings of the National Academy of Sciences*, *Science*, and *Urology* offers critical insight into the results provided by the new Photon-Genius. The Photon-Genius's proprietary circuitry generates the Genius dynamics of *Photon-Genetic Energy*, *Life-Force Energy Transmission*, *Harmonic Frequency Tube Technology*, *Harmonic Infrared Energy Transmission* to communicate with all the cells of the body to balance and enliven all systems and organs of the body while activating Arginine in the body to create Nitric Oxide. This provides many health benefits.

- This relaxes arteries, thereby helping to maintain normalizing blood pressure improving Heart function. This directs the beating of the heart, triggering the heart to beat faster or slower. This result is the mechanism relaxing the heart known as the endothelium-dependent relaxing factor. Lack of oxygen constricts the heart. (this "Genius" dynamic affect on the body carries oxygen in and carbon dioxide out)
- The Photon-Genius helps keep open the coronary arteries, preventing angina pain.
- The Genius produces a free-radical scavenger that helps to lower serum cholesterol and prevent "bad" LDL cholesterol from oxidizing and becoming worse.
- The result is a powerful anticoagulant (blood thinner) that helps prevent blood platelets from clumping together and causing heart attack and stroke.
- This result serves as a critical "bullet" by different immune-system cells that use it to kill bacteria and viruses and even shrink some cancerous tumours.
- The Genius produces a messenger molecule allowing nerve cells and brain to communicate with each other.
- The energy is used by the brain to encode long-term memory and ensure blood flow to brain cells. (Improves memory function)
- The Genius helps regulate insulin secretion by the pancreas, reducing the risk of diabetes.
- The Genius helps control the lung airways, allowing one to breathe easier and avoid lung problems.
- The Genius relaxes "hypertonic" sphincter muscles, preventing and healing hemorrhoids.
- The Genius stimulates the body into releasing the all-important human growth hormone, a key to longevity as well as improvement in body composition by boosting lean muscle mass and bone density while decreasing fat tissue. (Boost muscle growth)
- Using the Genius delivers oxygen to our cells and ferries carbon dioxide back to the lungs for discharging. Genius use regulates all cell function and communication.
- Using the Genius helps the body eliminate ammonia that accumulates as a toxic byproduct in muscles from the body's building, sprinting, and other short explosive bouts of exercise. It is, quite literally the Anti-aging process.
- The Genius helps regulate healthy intestinal functions.
- Diabetes accelerates hardening of the Arteries. Using the Photon-Genius directs the insulin that regulates blood sugar and reduces Lipid peroxidation.
- The Genius triggers the release of Prostaglandins that lower inflammation and pain.
- The Photon-Genius reduces inflammation and speeds up the rate of healing.
- The Genius inhibits the growth of Cancer Cells. The Genius dramatically reduces the pain associated with Cancer.
- In twenty-five minutes it can reduce the pain in about 90% of the people.

The Photon-Genius creates new dynamics and incorporates the old principles of HYPERTHERMIA (heating tissues, organs, and body systems to about 106 degrees). Hyperthermia therapy is used widely in Europe for cancer patients. The more advanced and experienced Practitioners acknowledge that malignant cells are more sensitive to heat than normal cells and heat is an enemy of cancer cells. One of the unique challenges with cancer and cancerous cells is the ability to target these cells specifically. The Photon-Genius powerful proprietary circuitry generates the Genius dynamics of *Photon-Genetic Energy, Life-Force Energy Transmission, Harmonic Frequency Tube Technology, and Harmonic Infrared Energy Transmission* which targets the whole body at the cellular level and allows for specific areas, organs, and tissues of the entire body to benefit directly. The Photon-Genius is a revolutionary way to help disarm and devitalize pathogens in the body.

Using the Photon-Genius warms the endothelium (cells in the walls of blood vessels that regulate clotting) and increases the production of nitric oxide. This may offset many health conditions that impair the ability of your endothelium to produce nitric oxide when and where it is needed.

L. John Mason, Ph.D. of the Pain and Anxiety program from the Success Education Center in Cotati, CA had a protocol "by warming the extremities, the hands and then the feet, you can prevent or at least, minimize symptoms of stress that manifest, via:"

- Stress caused or Situational High Blood Pressure
- Rapid or Irregular Heart Rates
- Migraine Headaches
- Panic and Anxiety
- Many Digestive Symptoms
- Many symptoms of Sexual Dysfunction including Infertility, Impotency, and Lower Libido.

Using the Photon-Genius benefits constricted blood flow and inflammatory disorders and increases nitric oxide. "Picture an inflamed area of the body engorged with pain. Then through chemical signals your immune system summons for help the cytokines and chemokines to identify the problem. This summons the angry white blood cells, firing away with their oxidative ray guns. They are shooting bursts of free radicals of oxygen at invaders. We mean this literally – that's one of the ways white blood cells work. They work by producing free radicals to act as biological thieves, to steal electrons to assist the breakdown of damaged tissue or invading foreign substances."

What do scientists know about Nitric Oxide?

- 1) The Nitric Oxide produced by using the Photon-Genius flits about the body at speeds almost too fast to measure. One researcher finds it difficult to understand, "it is everywhere and it's nowhere. It appears to travel just below the speed of light. As soon as it delivers its message by photon light it disintegrates and is gone."

- 2) This is a free radical creator and identifier determining which bad cells are to be destroyed. The Genius is involved in the process to oxidize the bad fats and toxins in the body. Without this technology we continue to develop a toxic dump in our body.
- 3) The Genius plays a role in regulation of brain activity and (detection of) inflammation of brain plaque.
- 4) The result plays a part in inhibiting and blocking inflammation of wounds and tissues for all diseases with a lot of research for Alzheimer's, Parkinson, Arthritis & Cancer.
- 5) The Genius facilitates the changing & maturing of thought into action.

The Revolutionary Power of the Photon-Genius:

TO RE-ESTABLISH the ideal vibrational frequencies and harmonic energy states of each individual cell in the body.

TO DEVITALIZE pathogens in the systems of the body (yeast, fungus, mold, viruses, bacteria, parasites, etc.), stopping infections, slowing and reversing disease processes.

TO BREAK-UP blockages and barrier tissues through re-polarizing cells and molecules; dissolving lumps, clots and mineral deposits.

TO DETOXYFY the body by moving and balancing the lymphatic, circulatory and other fluid systems of the body through all the channels (blood vessels, lymph, capillaries) for more efficient transport of nutrition, vital energy and infinite intelligence throughout the cells of the body, brain and nervous system.

What the Photon-Genius Does:

- The Genius causes the smooth muscle cells to relax. This means the Photon-Genius is a good preparation before massage or during massage and all other protocols.
- This resulting contraction-relaxation cycle generates storage of ATP (energy), which provides the energy for the skeletal muscles.
- This result in tissues reacts with oxygen and superoxide. The superoxide combining with this effect decomposes into a highly reactive OH free radical identifying the bad cells for destruction by T cells and killer cells. If bad cells are not destroyed, cancer cells accumulate.
- The Genius is of major importance in maintenance of blood pressure.
- The Genius causes a resistance to vascular stroke.
- The Genius produces a beneficial neurotransmitter in the brain and peripheral autonomic nervous system. This causes the parasympathetic nervous system to turn on and all the muscles and body systems to relax causing the body to become unstressed and more relaxed.
- The Genius reacts with the primitive immune system to enhance and empower the immune system.
- The Genius inhibits adhesion activation, and aggregation of platelets. The Genius keeps the individual blood cells from sticking and coagulating together allowing oxygen and nutrients to get into the cell and wastes to get out.
- The Genius plays a role in neurotoxicity (of nerve cells), detoxifying the neuron cells, and all other individual cells of the body.
- This result keeps the DNA (cell duplication) and ATP (energy storage & production) from becoming overrun by toxins and chemicals.
- Using the Photon-Genius promotes and accelerates the processing and elimination of toxins and free radicals. Drinking water before and after your Photon-Genius sessions improves your body's ability to more efficiently perform these functions.

Using the Photon-Genius produces potent antioxidants, neurotransmitters and artery wall relaxers. The Photon-Genius helps regulate muscle tone of the arteries and prevents arteriosclerosis and is anti-inflammatory preventing injury to vessel walls and normalizing blood pressure in the process. The more of this Photon-Genius activity in arteries, the more the muscles relax and improve in overall function throughout the entire body. Using the Photon-Genius produces powerful brain cell protectors, neurotransmitters, memory and learning enhancers (sending harmonic, balanced chemical messages in the brain).

The Photon-Genius is the first and only Instrument in the world utilizing the historic Genius of Ed Skilling with the sophisticated, proprietary circuitry to generate the Genius dynamics of *Photon-Genetic Energy, Life-force Energy Transmission, Harmonic Frequency Tube Technology, Harmonic Infrared Energy Transmission* to communicate with all the cells of the body to balance and enliven all systems and organs of the body. The Photon-Genius transmits, imprints, and reminds the human body at the cellular level of the essential creative process of perpetual enlivening energy that results in more natural and empowered regenerative processes throughout the body. The Photon-Genius is a wonderfully safe and easy-to-use means of achieving ever-accelerating levels of health, wellness and more efficient, natural regeneration and rejuvenation. These Photon-Genius technologies provide "noticeable" and "comprehensive" health benefits to make your body the best it can be.
